“ Al my friend of 26 years, where did the time go. Al started attending welding classes at the Northeast Wisconsin Technical College in Green Bay in 1992. I just happen to be working as a Computer Lab Technician and you needed some assistance, we struck up a conversation in the hallway and we went to the cafeteria for some soup and we become friends over time. You continued taking computer classes, programming, AutoCAD, Solidworks, 3D drafting, tech sketching and graduated from the Mechanical design program at the age of 72. Al you worked hard at your studies, diligent and excelled in school. You might be the longest life-time learner NWTC ever had, 22 years. Your great sense of humor, caring and kind heart. Love for nature and animals, we so enjoyed your visits to our farm. Many knew Al as a quiet humble man that liked to fish the Fox and Peshtigo river. So many stories to tell yet a great listener. I enjoyed writing you letters these past year's as you moved to Tulsa and we were miles away, so thankful you made it to a warm place to live. We celebrate knowing you are with the Jesus. He knew your big heart like no other. We will miss you dear friend, you touched our lives in so many ways. We are truly blessed. Thank you for sharing in our lives. We would like to thank the staff at The Cottage Extended Care for aiding in your care.

To the family of Al please know that you are in our hearts and prayers may you be comforted by our friendship.

Chelle and Steve Ringblom

"I found out everybody's different – the same kind of different as me. We're all just regular folks walkin down the road God done set in front of us. The truth about it is, whether we is rich or poor or something in between, this earth ain't no final restin place. So in a way, we is all homeless – just workin our way toward home"

"Quote by Denver Moore"
