“ *Aegion and CRTS Mourns Death of Valued Employee, Lance Lawrence*

On September 10, 2013, our Company lost a friend and outstanding employee, Lance Lawrence, in an auto / motorcycle accident.

Lance trained in electronics in the Navy as well as at Northwest Community College and Northwest Vo-Tech. He worked for the University of Arkansas in the Department of Computer Systems Engineering through the 90s. CRTS was in contact with Lance for almost two years before we were able to attract him to join us as an employee. He started at CRTS in March 2012 and traveled the world helping us provide expert customer service.

In his first effort for us in 2012, he worked on a project in Chile that was challenged with electronics problems. He battled for months to keep the project running and won. We've heard employees who worked on that project describe him as a "rock star" for keeping it going!

There wasn't much that Lance couldn't fix if he could get his hands on it and he was always up for a challenge. Lance recently took on the task of rebar coating plant installations. He had installed a bar plant in Al-Khobar, Saudi Arabia and was preparing to go back to Riyadh in Saudi Arabia again to install a state of the art facility with HMI (Human Machine Interface). We will surely miss him and his contributions to our company. Our thoughts and prayers are with his family.

He is survived by his his wife, Lisa, and his children and stepchildren.

RR

I knew Lance in Rogers many years ago. He was a great guy and a friend. May he be with the Lord

“ I didn't know Lance very well but I do know that every time you would talk with him, he had the gift of always bringing a smile to your face. Pretty simple and pretty profound.

Bill Bramsch - September 16, 2013 at 01:08 PM

“ Lance, thank you for bringing sunshine to work every day. It's a little cloudy now, but the sun will shine again.
