“ *Brenda is my aunt, my mother’s sister. We were very close and texted each other with updates throughout the month. She was caring and wise. A green thumb extraordinaire and an excellent chef. We enjoyed several years of lunch and dinner dates before she moved to Oklahoma. She was the aunt that called me every birthday. She was the aunt that took me in when I needed a couple weeks from home. She is the lady that followed up on our last conversation. She let me know how much she cared about me, she gave me love. She cared about my sons, her great nephews, and she let me know how proud she was of us all. Brenda was thoughtful, compassion and a bright light. My Auntie was witty and insightful. She had the advice and loads of information. I’m lucky to have had such an amazing Auntie. I am missing her so.*
