“ I am so thankful I got to meet you & spend time with you. You have an amazing family & I saw how important they were to you. You always made me feel like part of the family. I'm so glad you were so supportive of me & Tre that really means a lot to me 💜. My favorite memory was when we all went fishing & we all caught a fish & you kept catching so many like back to back. I didn't grow up with a lot of family or even doing a lot of family stuff together so every time we did stuff like that it made me happy. I always noticed how happy you looked when your family was all there & together. I am going to miss you, it won't be the same without you. Heaven is lucky to have you, I love you 💖

“ Im really going to miss you gma, some of my best memories with you was going down to your house during summer break when i was younger. We spent so much time together watching movies, playing checkers, cooking & going down to the lake. You loved seeing us happy & would do anything just to see us smile. Some of my favorite recent memories with you would be going down to your house every 4th of july or all of our fishing trips together. You've taught me soo many valuable lessons in life & im very grateful to call you my grandmother ❤️ Im also grateful for all the time we spent together before all of this happened & our last holidays with eachother. Life wont be the same without you 😭 I love you soo much ❤️ I pray i see you in heaven again one day but untill then Goodbye Grandma Rest In Paradise 🌅🌅

“ You was with me through so much of my life. And always told me I could do it. I think some time you had more faith than me sometimes. It seems no matter what family function we went to we would always try to find each other. I will miss you. I love you so much.

“ I remember when aunt Deb came to stay with us before Misty was born and I wasn't sure how I felt about her but she fit right in with our crazy family and I loved her we would go to the park and play and take walks she loved the lake and being outdoors maybe that's where I get that from lol Then misty was born and she still did all those things with the both of us she never treated me like we were ever strangers before we were family
