MG

“ We were friends since 1968. We met in a pasture riding our horses. We got in a lot of trouble together from that day on. We would ride our horses through the golf course on the paved road until someone tried to run us off then we rode through the greens as fast as possible. When we were about 15 we decided to go trick or treating, and stayed out until 2:00am. We were grounded forever over that. I will miss her.
