“ Dj, I am so sad to see that grandma dotty has passed. I cant imagine what your feeling at this point. I havent told little john yet or ashley. Its kinda unreal at the moment to me. Remember her incidents with the irs saying she was like 30 years ago? She got such a kick outta telling that story. The love i have always had for the both of you has never changed and the more grandkids i have and trying to help raise them over the past few years has given me a greater appreciation for the two of you taking care of me when i needed it most. Always remember she chose you and always loved you unconditionally.

Love you always,
Deanna K. Thorn
