“ *Always got excited when Uncle Dale and the family would be in from California. Didn't get to spend much time around him after growing up. But he always had a smile and a story when we did get to talk. Usually about something him and grandpa Clifford got into. Or one of the other brothers. RIP Dale. Will always keep you in my heart!*

“ You will be miss Dad. Will always remember the fishing we did together, working along side you while living in Santa Paula, and the casino trips including the winter one waiting outside in 6 degree weather. Wish we lived closer later in your life. Love you and will miss you dearly. William
