RE

“ *Dispite being first cousins distance and lack of active family connection- we just never had the time to spend together. I first met him in my 50s we talked a lot on the phone.bottom line is I loved Jack Dallas as we called him. I had plans of long visits when I retired. I was so surprised to hear of his passing. At the time I was dealing with my mother's cancer and other chronic conditions. I still am much more advanced. I didn't know what to say to Kari and his son John who were grieving the loss. So sad still - I miss you Jack Dallas*
