“ Dad it's been a little over a month and I miss you more than words can describe. Your cowboy Caiden misses you too. I will always remind Caiden of all the good times we had, and how you two had such a special bond. You were the best papa ever! I love you so much. At times I break down and think how I am going to keep on keeping on without you? I miss the sound of your voice, the way you would aggravate me, and the advice you would give me. You always made me feel like I was important. You were such a great dad. I hope you are having a good time, and are watching us up there. I love you. Until we meet again❤️

“ Jerry came to us with a high recommendation from Bob Malan. He pushed himself to learn new CNC machining techniques and became our resident expert in machining critical tolerance aircraft aviation components. Jerry was a kind, humble and modest human being which are rare enough qualities in a man, much less someone with his talents. He talked often and fondly of his family and was willing to work hard at making whatever changes he needed to make to be a better husband, father and employee. A very rare gem.
