“ Bear you will be missed by so many. Your great smile always lit up a room and every where you went people would always talk about that kid named Bear.

I remember when you were just a baby and your dad started calling you Bear and I told him you were too little to be called bear because you were so tiny. Boy was I wrong!

We love you Bear and we will miss you. You may be gone from our lives right now but we have our memories until we all get to reunite in Heaven.
