“ *♡Rest in peace, Uncle Randy♡*

To the man that taught me cribbage, the man that would win a stuffed animal from the claw machine everytime for me, the man that took me for a soda and a game of pool at the old Bergie's, the man that has worked on my cars many times, the man that was like a second Dad to me as a child, the man that has listened to me when I needed someone to countless times, the man who would always offer advice when I needed it, the man who would give me or anyone his roof or the shirt off of his back, I'm not ready to say goodbye. So, It's see ya later. Have one with Grandma for me. ♡

“ RIP UNCLE RANDY !!!!

I remember the moments in my life that are my iconic moments because of YOU. There are so many things you did for everyone. You are another Matriarch of this family that has passed. Another Icon is in heaven.

I remember when you was part of the rescue mission for my two brothers and I from Iowa state child custody. You were part of the reason I know and love and have grown close to my Oklahoma family. I remember fireworks on your property every year. The tear drop was the place be!

I remember you laying on your horn every morning to pick my dad up for work lol. I remember how you were the place to be to bring family together. I remember when I was pregnant with my first born, and you took me in. I remember when I was going through child custody you were the one that got me through it 100%, and oh man that smart mechanical mind you had; everyone envied. You were the smartest man I knew !! Because of you I want an el-Camino !! So many memories in that car. Thank you for the many times you have rescued all of us!!!
