JR

“ Ken and I grew up together when he was born two weeks after I was. He was born January 22, 1944 and I was born 14 days before Ken. We were cousins but more like brothers. He lived in Bartlesville and I lived in Cushing, Oklahoma. He always kept in touch with me and I with him since our birthdays were two weeks apart. Ken continued to live in Bartlesville and I joined the Marines out of high school. I never moved back to Oklahoma and lived in California until moving to Nevada in 2010. I hadn't seen Ken in many years. We would have lengthy conversations on the phone every January when we celebrated our birthday. I will remember him forever.
