“ *Lorna was a unique character. I got to spend a bit of time with her this year. We would work on her puzzles and chat. She loved humming birds, liked to read and do crossword puzzles. We will miss her.*

“ *Lorna was the person that would light up a room. That smile along with her sense of humor. Unfortunately God needed a sassy pants angel and called on Lorna. Lorna had a very aggressive infection in which her body could no longer fight.
She leaves behind her husband Mike of 20 years, stepsons Michael and Corbin her sister Donita, niece Michele, nephews Don and Randy, and several other relatives.*

Lorna was a Southern Gal in my eyes. She "Wecomed" me into her world when I relocated with Becky from Cali.. Even more so a kind sole , Mike and Lorna gave up there Air miles so my daughter Meliza could come out to visit us in Tulsa. Always made me feel special when she would call me "Suge". Only she called me that , and it felt good. Now she has gone into the loving arms of God. May we all be so lucky to be embraced...Amen
