“Gone but never forgotten your memories will live on in the hearts of many. I will always remember being in church with you and your sister We all have great memories of you . I can remember the Big white house you all lived at in Keokuk Iowa. Some good memories for me ... Now you have a new body and no more pain and walking and taking with all your loved ones who are there with you .. Dancing with your mom . I am sure she was right beside Jesus to welcome you home with wide open arms. You will be missed .

“Oh my sweet baby sister, you weren't supposed to leave before me. I'm lost without you sis but I know God gave you a promotion to heaven to take care of the babies there just like you told me! You smiled so big before you passed, I instantly knew as sisters know, that you were walking with mom toward Jesus, I could see it on your face... I'll never forget our closeness and our snuggling in bed while kids to snuggling when you got sick... I'm so lucky that I had you for 60 years... I know you are having a wonderful time being with mom and holding your baby...seeing grandma and grampa and Richey also Willie too! You keep the promise you made to me sis so please don't forget! I'll see you one day again little sister, I'm just so happy you won't suffer anymore! I love you forever! Debi

*Dear cousin, I will forever be grateful for your faith in God. You praised him in the good times and praised him during your darkest hours. Last thing you said to me was, "I love you Charlotte and I'm praying for you." What a testimony to the world, you were so sick and given the worst news one would ever want to hear and yet you spent your time praying for others. My heart will never forget those words and I play the video often.*

*Your work on earth will continue through the lives of others as you planted the seeds and they will continue to grow. I will forever be grateful for the step in faith you took to reach out to myself and others and once again bring love and unity to our families. It took a humble and Godly woman to reach out to others and make sure no stone was left unturned. I learned so much from you and it has made me a better person in my Walk with the God. I was sooooo happy to get to see you but dear cousin it will not compare to the joy we will share when I make my journey inside the Eastern Gate. I look forward to seeing you, Leslee Anne, Dad, Grandpa, Grandma, Aunt Naomi, Unc Omer, Aunt Martha and so many other family and friends that have gone on before. Especially tell Bro John and Sis Ruby to look for me, For I will be there too!!!*

*Love you and I will continually pray for your siblings and family. They love you so much and it is a struggle for them which just shows how much they loved and admired you.*

*We will see you again dear cousin and when we do what a day that will be!!!!*
