Tribute Wall

“ My Aunt Shirley and Family have always lived close to my Parents, her Sister, Gertie Hobbs. Our Families have shared a lifetime of Holidays and many adventures. When Mom was needing a new kitchen appliance or carpet or a new car; Mom & I would call on Shirley to accompany us in Mom's shopping spree. It always turned out that we had to make at least three to four shopping trips before Mom would finally make her purchase. But, the three of us had so much Fun and laughs together. We laughed so much that it was difficult to drive the car with the tears in my eyes.

One shopping trip was made in my Ford Aerostar minivan. Mom purchased a double oven; which required me to remove the middle Captain seats and place them on the back bench seat. Then the oven was loaded into the middle of the van. That left the three of us and two seats. Thank goodness Shirley was short; she rode on the console between Mom and I. We laughed all the way to her house from 21st & Yale. To this day, I can still break out laughing when I think of that shopping trip.

Fifty-two years ago, Shirley helped my Mom in making my wedding dress and veil. I am forever grateful for her helping Mom and being part of my wedding ceremony.

Lisa and Family, I am so sorry that you are going through her Loss. May the many memories of your Mama give you much comfort in the days to come. She loved each of you so much and was very proud of all of you.

Mom and Shirley did lots of things together; I never thought it would be in death, too. What a reunion they are having with all of the Family that have preceded them.

I'm going to miss my sweet Aunt; along with my Mama.💔

Our Love~
