“ My late husband and I adopted little Lady Bug, now Pi'ranha from Vicky in Feb 20 and she pet sit for me several times....I considered her a dear friend despite the distance and deeply feel her loss. My husband passed of cancer last July and Pi'ranha was his constant companion those last few months. I know D was there to greet her in heaven along with a MULTITUDE of dogs, horses and other animals blessed by her love and care. I feel her loss deeply and offer my most sincere condolences to her family and friends Julie and Pi'ranha Ford, Branson MO

“ I volunteered with Vicky thru Zoi's and stayed in touch as our rescue efforts crossed paths. She impressed me with her passion for animals and astounded me as I saw the adoration of the dogs she took in as fosters. I know few people who helped so many animals, and the looks on the dogs' faces as they watched her walk around at Petsmart demonstrated how much they appreciated her care. I learned much about animal care and rescue protocol from this GREAT lady. She ran to OKC and all over OK to pick up dogs who would have been put down if not for her, and tended to so many who had medical issues that others would have passed on their care. She was an angel on earth. I loved her stubborn passion and endless love of animals. Her spunk and energy will be sorely missed, but I believe that many animals came to greet her when she passed and showered her with love and appreciation for taking care of them.

“ I worked with Vicky at BOK. She was so much fun! When she retired, I would see her now and again at Petsmart with her animal group. She was a loving caregiver to all animals. She will be missed! Sorry for her loss, Prayers for her family, friend and pets. Janet McKee
