“ *This woman has been heavy on my mind after moving from Parkview apartments I lost contact with her and the children. My heart is sadden right about now. This lady has the sweetest heart as she is so soft spoken. Heaven has gained a true Angel that I know that will be missed in this earth but knowing that we have a chance to see her once again on the other side. To the family i will continue to pray strength for you. But know that she is not here in the flesh but she lives within each of you.*
